1. CIRCUIT INFORMATION

CIRCUIT – ARIAL VIEW

Aerial photo from the Monza Circuit

CIRCUIT ADDRESS

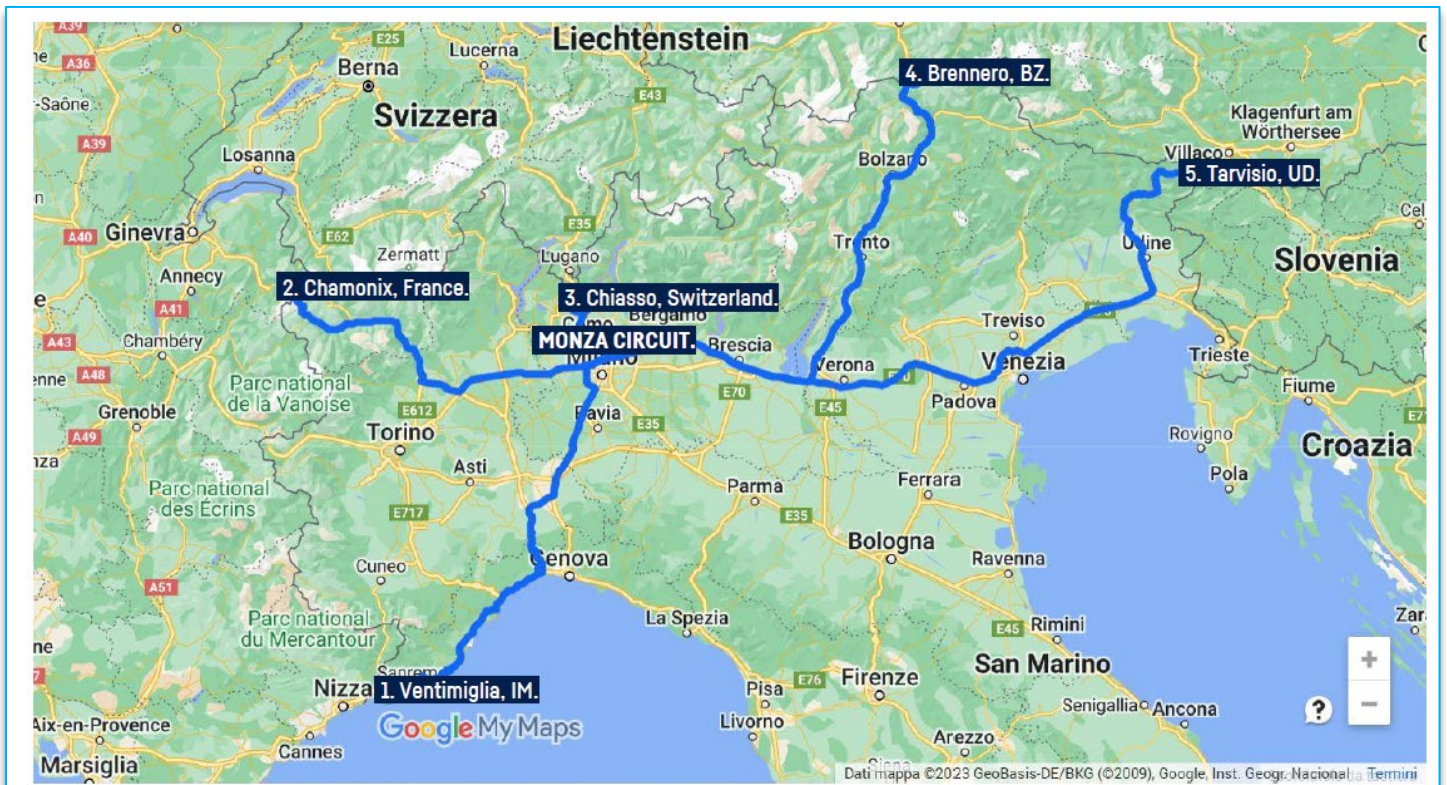

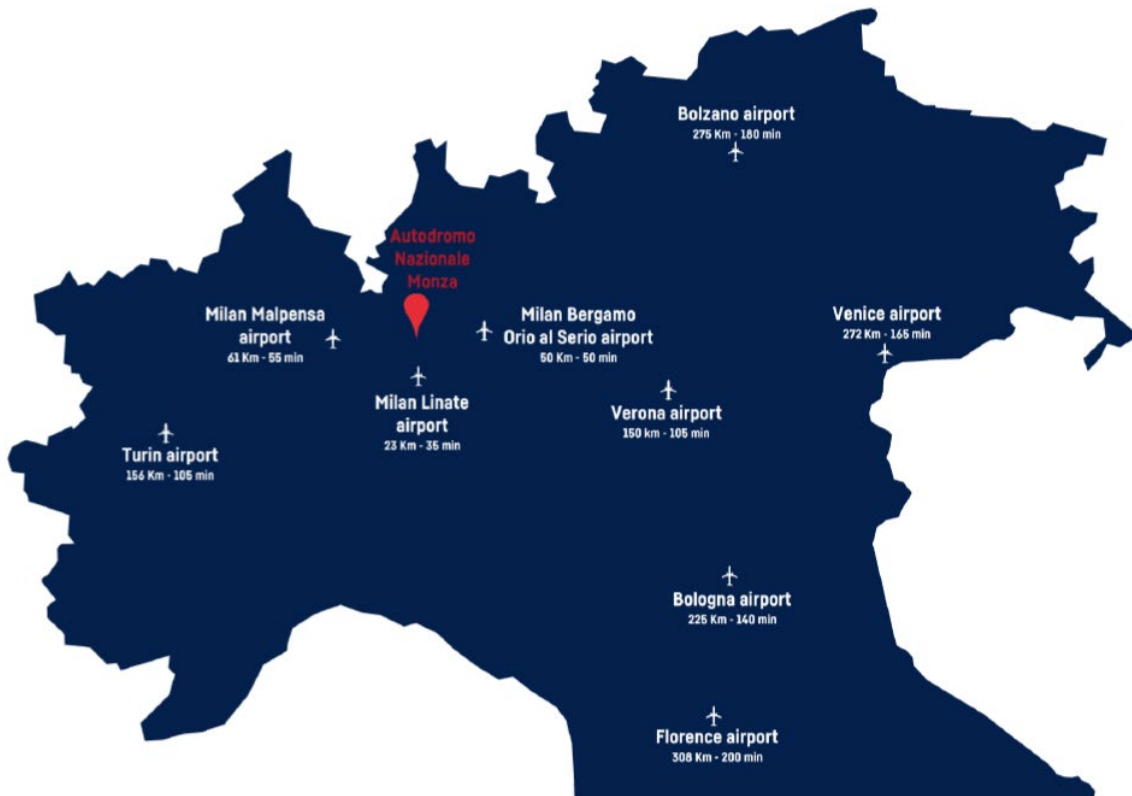

Autodromo Nazionale Monza
Via Vedano 5
20900 Monza (MB)
Italy

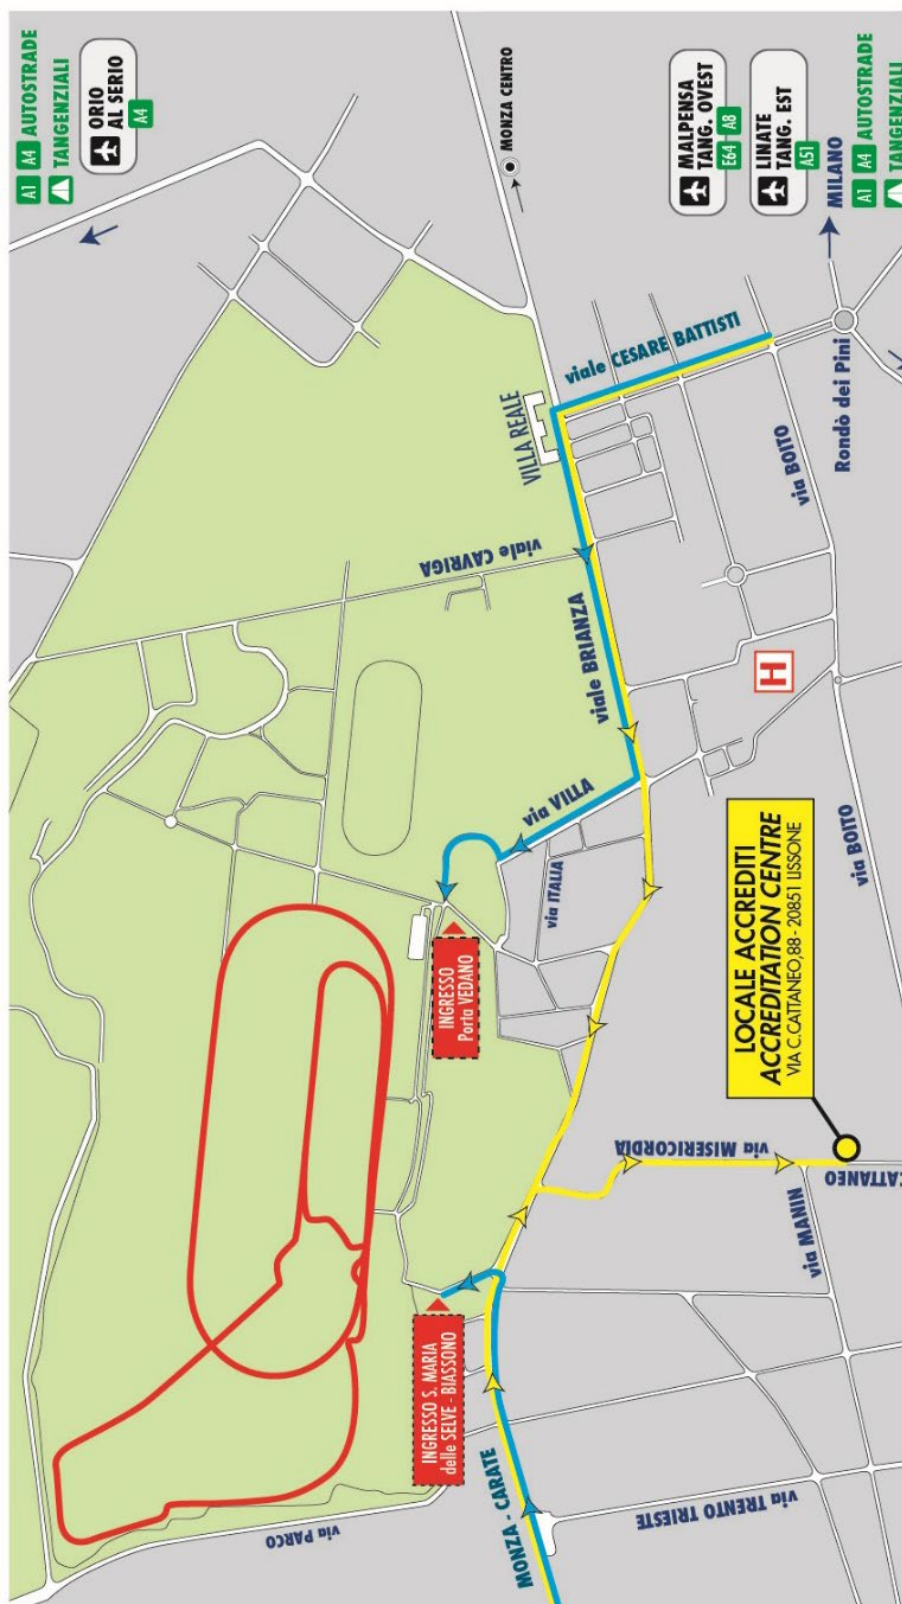

SPECIFICATIONS

- 5.793 km Grand Prix track with a width varying between 10 m – 12 m
- Height between the lowest and highest point on the circuit: 620.057 m to 564,116 m
- 11 turns (7 right and 4 left)
- Length of start/finish straight 1194.40 m

DRIVING DIRECTIONS TO THE CIRCUIT

DRIVING DIRECTIONS TO MONZA CIRCUIT CONNECTIONS

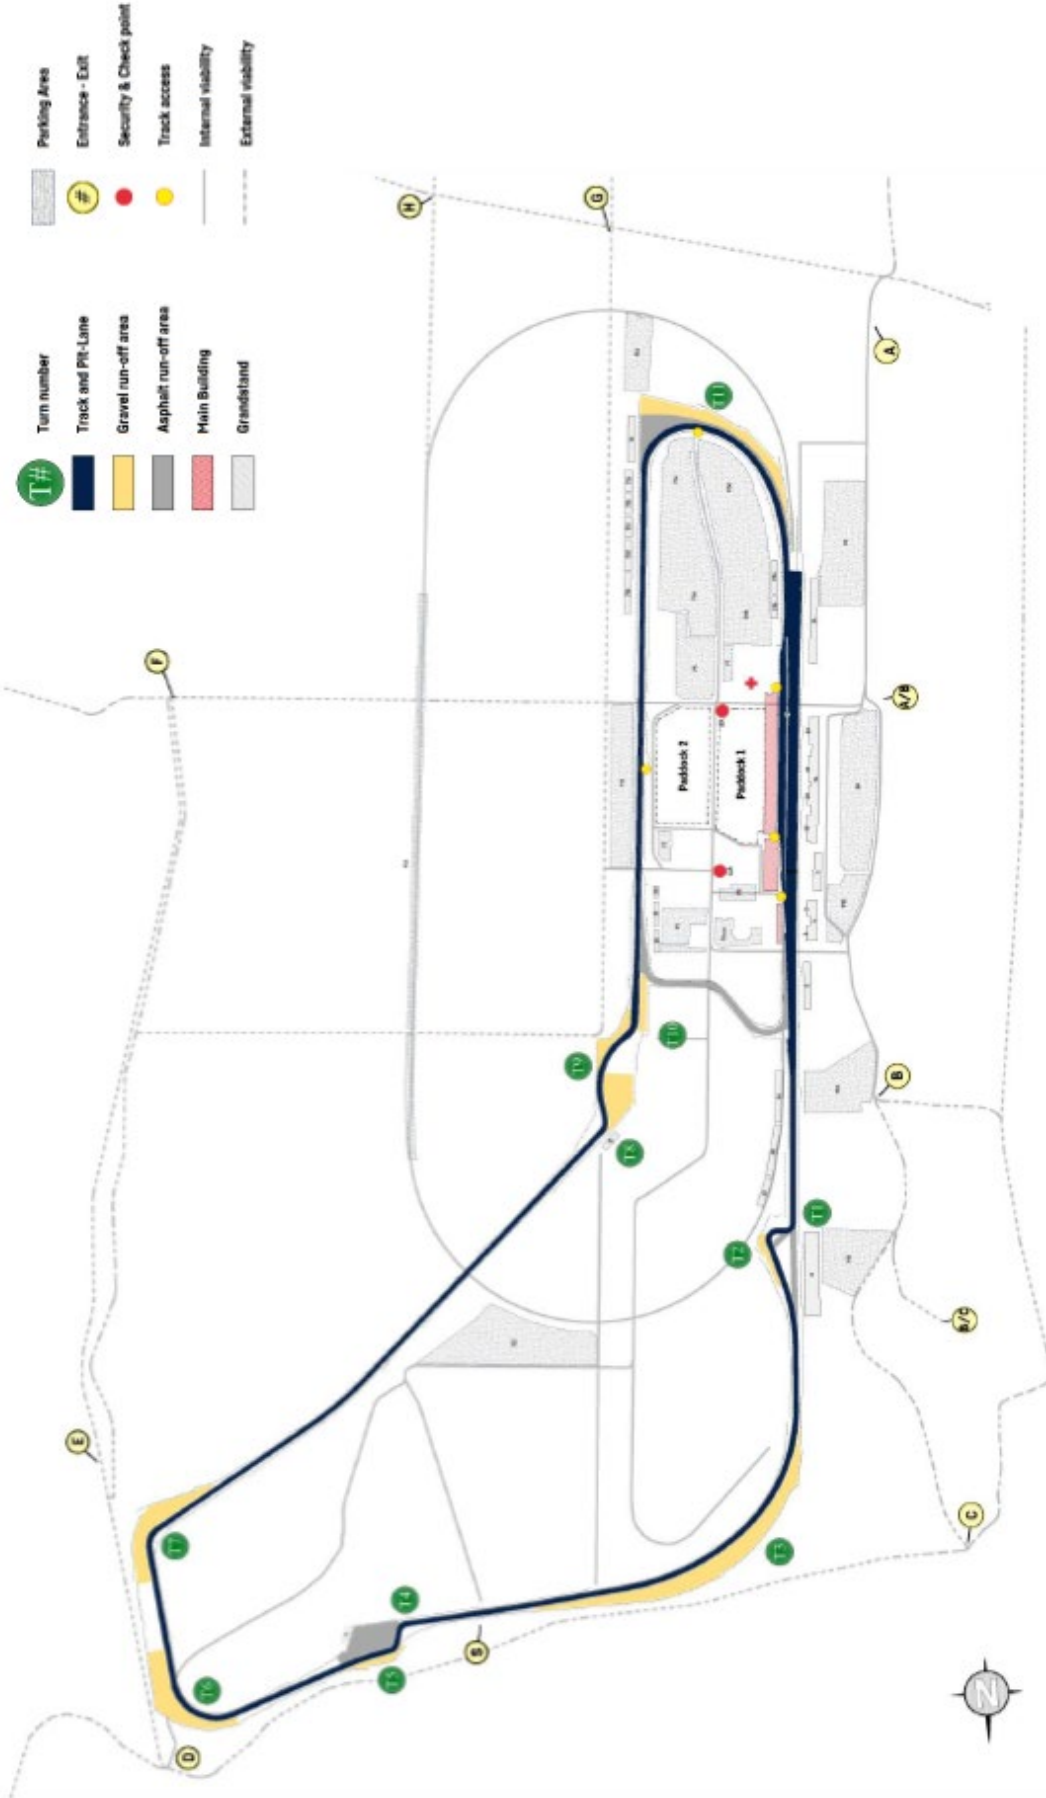

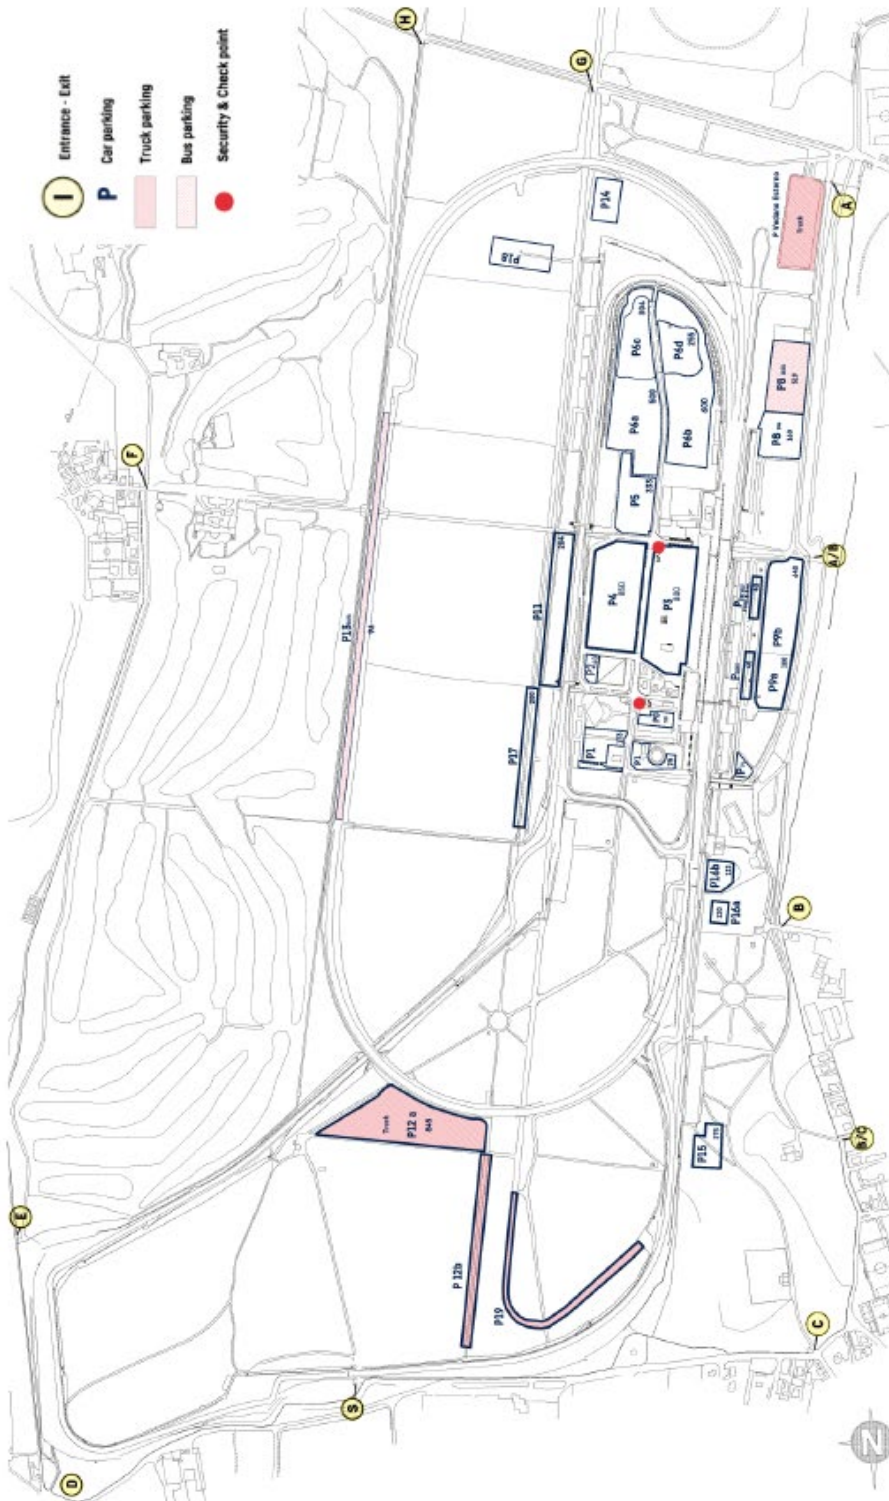

NOTE ON CIRCUIT ACCESS

In order to allow you a comfortable access to the Circuit, we will kindly advise you to use the Santa Maria entrance as the traffic tends to be smoother than the Vedano Gate.

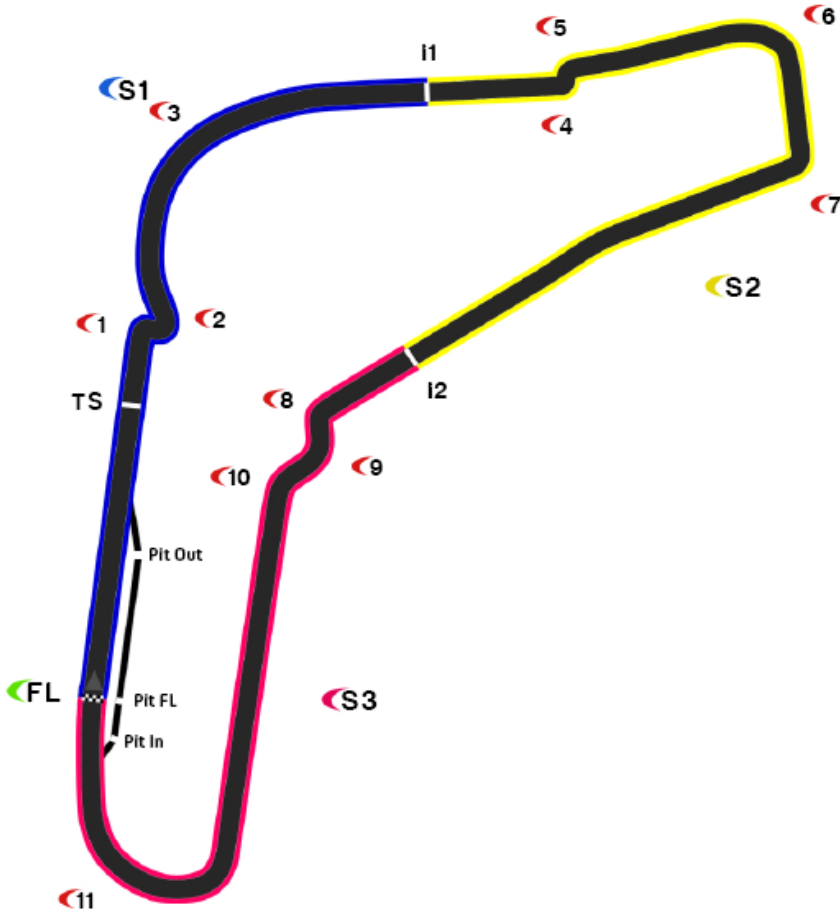

GENERAL PLAN

PARKING MAP

TRACK MAP

Centerline: 5.793 m.
 Start Line Offset: 309 m.
 i1 at 2.055 m.
 i2 at 3.727 m.
 Pit in at 5.707 m.
 Pit Out at= 332 m.
 Pit in to Pit out: 418 m.
 Lap by the Pits= 5.792 m.

v1. 30.11.2022 14:41

Heights on the track
 Heights out of the track

TRACK MAP INCLUDING MARSHAL POSTS

2. TELEPHONE, DATA AND INTERNET SERVICES

If you want to request a phone line or a internet data line or a IT service, please use the order form available via the [this link](#)

3. RADIO FREQUENCIES

All radio used over the event should be declared using the MRTC provided form (to be sent back to your series manager)

4. PADDOCK

PADDOCK ARIAL VIEW

5. MAST INSTALLATION

For the European rounds, each competitor must affix their antennas relays on the roof of the truck parked at the back of the pit garages. It is strictly forbidden to affix an antenna on the pit building. No derogation can be granted.

6. FORK LIFTS

Forklifts are to only be operated by qualified personnel. Teams are asked to be prepared to show relevant forklift operating qualifications for all operators on-site. Information includes:

- Photo ID of operator(s)
- Forklift Certification

Forklifts will not be authorised in the paddock area from Friday morning 7am.

7. OVERFLOW

At the Monza Circuit, the overflow area will be located inside the circuit (**P6 parking inside Parabolica curve**) according the plan shown below. **PLEASE NOTE THAT IS NOT AUTHORIZED TO WASH THE TRUCKS AT THE OVERFLOW. TRUCKS MUST BE WASHED IN FRONT OF THE PIT BUILDING IN THE PADDOCK AREA**

8. ADDITIONAL SAFETY REQUIREMENTS

- Safety checks are required to be carried out on forklifts and similar equipment in accordance with rules and regulations.
- Flashing lights and reversed beepers must be operating at all times. Report any problem to the Circuit Office.
- Records must be made available for inspection should this be requested.
- High visibility vests must be worn at all times during build and breakdown.
- Spotters must be used at all times when moving loads that restrict view.
- The Venue Safety Guidance Notes must be adhered to at all times.
- Do not attempt to lift more than the forklift's rated capacity.
- No passengers allowed on forklift (seat, tines or side).

9. SECURITY

NOTE ON SECURITY

The flow of people produced by the FIA WEC event, unfortunately also attracts malicious people, and leads to vandalism and theft of the cars primarily owned by the protagonists of the event.

The Police Forces have been alerted and are operating in the racetrack and in the city in surveillance and repression actions.

In any case, we recommend that you avoid leaving goods or any other material in sight inside the car. Remember that the presence of the pass on the windshield facilitates the identification of "insiders". Furthermore, with the use of frequency jammers by thieves, make sure that the car is actually locked after operating the remote control and before leaving the car. Do not leave the windows open, not even a narrow opening.

For any suspicious actions or reports, please do not hesitate to inform the safety staff of the Circuit
