#### SC PROCEDURE

In the event of a major incident the Race Direction may decide to neutralise the race by means of a Safety Car operation

- A waving yellow flag + "SC" signs will be displayed at all commissaires' posts; double yellow flags will be waved at the location of the incident(s)
- From this moment on, all competitors must slow down, not overtake each other and stay in line behind the leader
- The leader will keep the peloton at a slow speed to assist the insertion of the safety car
- The SC will enter the track with its yellow lights on, ahead of the leader.
- If the SC is not in front of the leader, he can signal you to overtake him by turning on the green light of his light bar.
- When the track is back in race condition, the SC will turn off its lights at the recommended location (specified in the briefing) and the yellow flags will be removed, only the "SC" signs will be displayed
- The SC will retire to the pit lane, the cars will continue on track and will be presented with a green flag on the restart line indicating the restart of the race
- ATTENTION: when the SC has its lights on, you must follow it wherever it goes (escape routes, pit lanes etc...)
